

Dear Colleagues,

even though it seems currently to be quiet at the field test site in Eschikon, I just want to remind you, that the issue of a possible disturbance by opponents is not over. Particularly upcoming Saturday, the 1st of May when all the police is bound to Zurich and autonomous groups are on the road anyway, may be a date suitable for the opponents. The place is easy to find currently due to the labelings on the roads around Eschikon. The Ecological Farmers Union of Zurich and Schaffhausen already announced a demonstration in Eschikon for the 6th of June. This makes no sense at all, since we make research and do not support with this experiment agronomical use of GMOs at all.

Please do not let in persons into the area, wait until the door is closed behind you and alert the Alarmzentrale (01.6322525) in case of any unusual event. I apologize for the inconvenience, but want to point out that all this inconvenience for safety is caused by the opponents.

Thanks a lot for your collaboration

Best regards
Christof Sautter
